

AMAC Logistics Ready to Handle Valley's Freight

MESA, Ariz. – May 5, 2005 – AMAC Logistics, which located to Williams Gateway Airport in January 2006, is poised to handle more than 5,000 cargo shipments through their office in its inaugural year.

“We believe Williams Gateway Airport will become the transportation hub of the Southeast Valley and the greater Phoenix area,” said Doug Hazen, President of AMAC Logistics. “The infrastructure is in place for air cargo and surface transportation to serve the local, regional, and international markets so we view this emerging area as an excellent opportunity.”

AMAC Logistics designs, implements and manages supply chain programs focused on the flow of materials and information for the manufacturing industry in Mexico. International air and ocean services compliment AMAC's North American focus through a strategic partnership agreement with Hong Kong based Hecny Transportation, which is focused heavily in the Southeast Asia markets.

The Airport is owned and operated by the Williams Gateway Airport Authority, which includes the Gila River Indian Community, Gilbert, Mesa and Queen Creek. For more information, visit www.flywga.org.
